

Handout: A Little Technique

Could a little technique help you win? Perhaps ...

Let's start by exploring what happens when we roll a standard six-sided die:

1. Have you ever noticed how the numbers are arranged on a standard die?
2. Can you think why they might be arranged this way?
3. Can you think of a technique for rolling a standard die that makes it less likely to roll a 1?

[Hint: this technique makes it equally less likely to roll a 6!]
